

1.4 Environmental Policy

Key Statement

The Company and Directors are committed to the responsible protection of the environment and all of its diversities and scarcities and acknowledge that our activities have an impact that require to be positively managed and controlled. We will strive to place this commitment above commercial considerations and will embrace and encourage like-minded thinking amongst our clients, suppliers, subcontractors and all persons that we encounter in our activities.

The Company will actively promote this commitment by:-

- 1) Reviewing the aspects of its business and by positive management seeking to reduce any detrimental impacts that have been created.
- 2) Reducing waste at source and recycling or reusing wherever possible.
- 3) Complying with all relevant Approved Codes of Practice and Statutory Regulations.
- 4) Reviewing the choice of our suppliers wherever possible and to promote our commitment to our supply chain.
- 5) Encouraging the selection and use of materials that are properly managed and sustainable and do not have a detrimental effect on the environment.
- 6) Supporting our clients and others initiatives that promote environmental awareness and social responsibility.
- 7) Regularly reviewing the effectiveness of our procedures in achieving our goals.
